

cat Command - Examples

cat file_name

```
aws ~/../../../../../../workground git:Umain cat file_name
File: file_name
1 this is a file
aws ~/../../../../../../workground git:Umain |
```

cat jayesh.txt

```
aws ~/../../../../../../workground git:Umain cat jayesh.txt
File: jayesh.txt
1 this is Jayesh from GfG
aws ~/../../../../../../workground git:Umain |
```

cat file1 file2

```
aws ~/../../../../../../workground git:Umain cat file1 file2
File: file1
1 this is file1
File: file2
1 this is file2
aws ~/../../../../../../workground git:Umain |
```

cat -n file_name

```
aws ~/../../../../../../workground git:Umain cat -n file_name
1 this is a file
aws ~/../../../../../../workground git:Umain
```

cat > newfile_name

```
aws ~/../../../../../../workground git:Umain cat > newfile_name
hi this is abhishek
^C
```

cat > jayesh1

```
aws ~/../../../../../../workground git:Umain cat > jayesh1
Jayesh from GfG
^C
```

cat file1.txt file2.txt > merged_file.txt

```
aws ~/../../../../../../workground git:Umain /usr/bin/cat file2 file1 > merged_file.txt
aws ~/../../../../../../workground git:Umain cat merged_file.txt
File: merged_file.txt
1 this is file2
2 this is file1
aws ~/../../../../../../workground git:Umain |
```

```
cat -s file_name
this is a file
```

```
cat file_name1 >> file_name2
```

```
git:~main cat file_name1 >> file_name2
```

```
tac file_name
```

```
cat -n file2
~/.../workground git:~main tac ~/.bashrc
cat file1 >> file2
eval "$(oh-my-posh init bash --config ~/.config/lambda.omp.json)"
eval "$(fzf --bash)"
eval "$(zoxide init bash)"
export PATH="/home/elish4h/.local/bin:$PATH"
# Added by Antigravity CLI installer
```

```
c -E file_name
this is a file$
```

```
c -A file_name
this is a file$
```

```
cat "filename" | more
```

```
cat "filename1" "filename2" "filename3" > "merged_filename"
```

```
cat "file1" "file2" "file3" > "merged123"
```

```
cat *.txt
```

```
cat >> geeks.txt
```

```
cat -- "-dashfile"
```

```
~/.../workground git:~main echo 'this is a dashfile' > -dashfile
~/.../workground git:~main cat -- "-dashfile"
```

	File: -dashfile
1	this is a dashfile

```
cat -- "-jayesh2"
```

```
~/.../workground git:~main echo 'this is a dashfile as well' > -jayesh2
~/.../workground git:~main cat -- "-jayesh2"
```

	File: -jayesh2
1	this is a dashfile as well

```
cat file1 file2 jayesh.txt > merged.txt
```

```
~/.../workground git:~main cat file1 file2 jayesh.txt > merged.txt
~/.../workground git:~main cat merged
[bat error]: 'merged': No such file or directory (os error 2)
~/.../workground git:~main cat merged.txt
```

	File: merged.txt
1	this is file1
2	this is file2
3	this is Jayesh from GfG

```
cat *.txt
```

```
~/.../workground git:~main cat *.txt
```

	File: jayesh.txt
1	this is Jayesh from GfG

	File: merged.txt
1	this is file1
2	this is file2
3	this is Jayesh from GfG

	File: merged_file.txt
1	this is file2
2	this is file1
