

Component 1 - Linux Command Assignment

1. What command will you use to create a file called `summary.txt` and few lines of text in it?

```
~/./../../../../workground git:>main cat > summary.txt
This is line 1 of summary.
This is line 2 of summary.
This is line 3 of summary.
^C
~/./../../../../workground git:>main cat summary.txt
This is line 1 of summary.
This is line 2 of summary.
This is line 3 of summary.

~/./../../../../workground git:>main |
```

2. Create a folder named `backup`, and copy `summary.txt` into it without changing the filename.

```
~/./../../../../workground git:>main mkdir backup && cp summary.txt backup/
~/./../../../../workground git:>main ls -l backup/
total 4
-rw-r--r--. 1 user user 81 Aug  9 10:33 summary.txt

~/./../../../../workground git:>main |
```

3. Rename the file inside `backup/` from `summary.txt` to `summary_backup.txt`.

```
~/./../../../../workground git:>main mv backup/summary.txt backup/
summary_backup.txt
~/./../../../../workground git:>main ls -l backup/
total 4
-rw-r--r--. 1 user user 81 Aug  9 10:33 summary_backup.txt

~/./../../../../workground git:>main |
```

4. Create three files – *day1.txt*, *day2.txt*, and *day3.txt* – with one command.

```
~/./../../../../workground git:>main touch day1.txt day2.txt day3.txt
~/./../../../../workground git:>main ls -l day1.txt day2.txt day3.txt
-rw-r--r--. 1 user user 0 Aug  9 10:33 day1.txt
-rw-r--r--. 1 user user 0 Aug  9 10:33 day2.txt
-rw-r--r--. 1 user user 0 Aug  9 10:33 day3.txt

~/./../../../../workground git:>main |
```

5. How many lines, words, and characters are in *summary.txt*?

```
~/./../../../../workground git:>main wc summary.txt
3 18 81 summary.txt

~/./../../../../workground git:>main |
```
